

SANDALS EMERALD REEF GOLF CLUB

A golfer's dream! This 18-hole, 7001 yard course has been named among the best in the Caribbean by Travel & Leisure Golf. Placing the front 9 holes through scenic mangroves, Greg Norman took advantage of the landscape's natural barriers. The back 9 offer challenges of a different nature where the sea views create ample distractions from the focus of the game. The ever-changing course presents a worthy challenge for even the most avid golfer. Golfers will experience a new game each time they play and there are five different tee boxes to accommodate every skill level.
